SENIOR FRONT END DEVELOPER

INDEPENDENT LIQUOR GROUP | MAY 2019 - JUL 2021 (2 YRS 3 MOS)

Served as the sole Front End Developer for the company, often working with other departments such as the Design Studio and Networking & Infrastructure. Designed and developed the ERP system from scratch, created new and updated existing Banner Group websites such as Bottler, Super Cellars and Fleet Street, created an Events based management system that manages customer flights, accommodation and daily schedules, created an Internal Training Module Website and did the initial migration from TFS to GIT. Once all the front end tasks were complete in the sprint I'd start working on the Back End tasks. Also, I attended the AWSome Day Online Conference training course to learn about AWS.
